Eco Works[®]

T-shirt bags

The EcoCortec team is proud to announce that new Eco Works[®] T-shirt bags are now available for distribution throughout the world at highly competitive pricing, making EcoCortec Croatia the global supplier of this new product.

Eco Works[®] Biodegradable & Compostable Films and Bags are specifically designed to replace LDPE, LLDPE and HDPE films used in a wide variety of applications ranging from protective industrial films, retail packaging and agricultural films to high performance organic collection bags with drawstring closures. Eco Works[®] T-shirt bags have properties superior to traditional non-biodegradable bags without sacrificing biodegradability or compostability. Eco Works[®] is internationally certified product with certification logos by ASTM and DIN CERTCO.

As compostability and an environmental image become more and more important, Eco Works[®] offers a very marketable and responsible alternative to most films

used in retail storage, shipping, display and packaging.

FEATURES

- 100% Biodegradable & Compostable
- Contains NO POLYETHYLENE
- Leaves no residue in finished compost
